

The Family

(aile)

This is Sarah's **family tree** (soyağacı). All the people in the pictures are Sarah's **relations**.

Other relationships

If you have a girlfriend or boyfriend, you say you are **going out with** him/her. If you want to be married to somebody, you **get engaged** first and then **get married**. If you decide that you want to end your marriage, you **get divorced**.

If your father dies, or if your parents get divorced, your mother may decide to marry again, and her new husband will be your **stepfather**. If your father remarries, his new wife will be your **stepmother**. If your stepfather or stepmother already has children from an earlier marriage, those children become your **stepsisters** and **stepbrothers**, and your mother's or father's **stepchildren**. If your mother and stepfather (or father and stepmother) then have children together, they are your **half-brothers** and **half-sisters**.
